

WHITTLESEA AGRICULTURAL SOCIETY INC.

ABN 84 030 324 717

Incorporation No. A002891R

FOUNDED 1859

CATTLE HANDLING PARTICIPANT RISK ACKNOWLEDGMENT & WAIVER

Name of participant:.....

Victorian Agricultural Shows Ltd and Whittlesea Agricultural Society (together "the Suppliers") advise that participation in the practice of cattle handling at an agricultural show contains elements of risk, both obvious and inherent. Cattle handling is a dangerous recreational activity and cattle can act in sudden and unpredictable ways, especially when frightened or hurt.

- 1 By signing this waiver I acknowledged that:
 - 1.1 participation in cattle handling is a hazardous activity and may result in injury, loss, damage or death to me;
 - 1.2 participation in cattle handling requires certain skills. I declare that I have sufficient skills to be able to safely and properly participate in the events;
 - 1.3 cattle can act in sudden and unpredictable ways, especially if frightened or hurt, or if exposed to loud or unfamiliar noises;
 - 1.4 cattle handling events will be held in close proximity to rides and large groups of people, and that there may be loud and unfamiliar noises which can frighten cattle;
 - 1.5 as the event is held outdoors, there are risks to me as a result of the weather conditions, including either extreme hot or cold weather, rain or wind;
 - 1.6 insects or other animals may cause the cattle to become frightened and act in unpredictable ways;
 - 1.7 there is inherent in cattle handling events the risk of suffering injury including injuries from the cattle;
 - 1.8 I am responsible for ensuring that I have and will wear equipment suitable for safely and properly participating in the event; and
 - 1.9 I use the facilities of *[name of show society]* entirely at my own risk, as I find them and with the prior acceptance of the risk of possible danger to me.
- 2 If I suffer harm while participating in a cattle handling event, I will not hold the Suppliers, their employees or agents legally responsible for any injuries I suffer. I will not sue the Suppliers, their employees or agents for any claims, costs, damages or liability. I agree to release the Suppliers and their employees from legal responsibility for the services I have been provided.
- 3 I acknowledge and agree that my participation in cattle handling events and associated activities are a danger and may have inherent risks as a result of which personal injury (and sometimes death) may occur and I accept and assume all such risks of personal injury or death in anyway whatsoever arising from these activities and hereby waive my individual right to sue the Suppliers for all claims I or my representatives may have for such personal injury or death against the Suppliers in any way whatsoever arising from or in connection with these activities.
- 4 I will not consume any alcohol or illicit drugs while participating in cattle handling events and agree that such use may result in me being excluded from an event with no entitlement to any refund of money paid for entry to the Suppliers.
- 5 I agree to be bound by the rules and guidelines of Victorian Agricultural Shows Ltd as varied from time to time.

Where the participant is over 18 years of age:

I agree that I have read and understood this waiver prior to signing it and agree that this waiver will be binding on my heirs, next of kin, executors and administrators.

I agree that this waiver shall be governed in all respects by and interpreted in accordance with the laws of Victoria.

Signature: , Dated:

Where participant is under 18 years of age (to be completed by a parent or guardian):

I, being a parent or legal guardian of the above named participant hereby consent to my child participating in the following cattle handling event

.....

I confirm that I have read and understood and explained to the participant, this waiver prior to signing it and agree that this agreement will be binding on my (and their) heirs, next of kin, executors and administrators.

I agree that this waiver shall be governed in all respects by and interpreted in accordance with the laws of Victoria.

Signature: Dated:

WARNING UNDER THE FAIR TRADING ACT 1999

Under the Australian Consumer Law (Victoria), several statutory guarantees apply to the supply of certain goods and services. These guarantees mean that the supplier named on this form is required to ensure that the recreational services it supplies to you—

- are rendered with due care and skill; and
- are reasonably fit for any purpose which you, either expressly or by implication, make known to the supplier; and
- might reasonably be expected to achieve any result you have made known to the supplier.

Under section 32N of the **Fair Trading Act 1999**, the supplier is entitled to ask you to agree that these statutory guarantees do not apply to you. If you sign this form, you will be agreeing that your rights to sue the supplier under the **Fair Trading Act 1999** if you are killed or injured because the services provided were not in accordance with these guarantees, are excluded, restricted or modified in the way set out in this form.

NOTE: The change to your rights, as set out in this form, does not apply if your death or injury is due to gross negligence on the supplier's part. **Gross Negligence** is defined in the Fair Trading (Recreational Services) Regulations 2004.

NATIONAL CATTLE HEALTH DECLARATION EXPLANATORY NOTES

OVERVIEW

The Cattle Health Declaration is a legal document. Please complete accurately before signing.

Cattle Health Declarations are a way for producers to provide information about the health status of the cattle they are selling. Buyers should ask vendors for a Declaration and use the information provided to determine the health risks associated with the animals offered for sale.

Some states require testing or certification additional to that outlined in this document. e.g. John's disease (JD) in WA. Please check the entry requirements for any interstate movements at:

www.animalhealthaustralia.com.au/what-we-do/ endemic-disease/ livestock-movements/

The original is to be attached to the National Vendor Declaration (NVD) form accompanying the cattle, if applicable. A duplicate remains with the vendor; it is recommended the vendor retains a copy of this declaration for seven (7) years.

QUESTION 3: PESTIVIRUS TESTING

Persistently infected animals can be detected by conducting a pestivirus antigen test. This test only needs to be conducted once in an animal's life. Cattle that test positive in most cases are persistently infected animals. Pestivirus antibody testing may be done to check the pestivirus status of the herd. Contact your veterinarian for assistance in understanding the test results.

QUESTIONS 4 & 5 – ENZOOTIC BOVINE LEUCOSIS (EBL)

All cattle entering Tasmania must meet at least ONE of the following criteria:

- Cattle have been tested for EBL with the ELISA test within 42 days before shipment with negative results and evidence supplied via an attached laboratory report. If samples were pooled, no more than 10 sera or 30 milk samples were combined in each pool. Unweaned calves less than 12-weeks-of-age transported with their dam do not require testing for EBL; *OR*
- Dairy cattle from a registered dairy herd must be accredited as Monitored Negative (MN) or better, according to the national guidelines for EBL Control; *OR*
- Beef or beef-cross breeds must come from herds in Victoria, South Australia, Western Australia (*excluding the cattle tick infested area*), New South Wales (*excluding the former North Coast Livestock Health and Pest Authority District*), or Queensland (*excluding the cattle tick infested area*). The herd of origin must have been in existence for at least three (3) years with no evidence of EBL infection in the last three (3) years.

QUESTIONS 6, 7 & 8: JOHN'S DISEASE BEEF CATTLE

Note: JD is a notifiable disease, so it is important to answer these questions.

Occurrence of JD refers to clinical disease in the herd or on the property. Clinical disease is an infected animal with chronic diarrhoea and weight-loss that does not respond to treatment.

The John's Beef Assurance Score (J-BAS) is a tool developed for JD risk profiling. Details are available on the Animal Health Australia website under 'JD in cattle'. The J-BAS is an initial guide and purchasers should ask for more information about JD in the origin herd (see JD in Cattle Biosecurity Checklist on the AHA website under 'JD in cattle'). Transitional arrangements are in place until 30 June 2017. The *National Farm Biosecurity Reference Manual - Grazing Livestock Production* provides a template to use for the property biosecurity plan. All plans should include the JD in Cattle Biosecurity Plan Checklist.

Check test – testing of 50 adult animals in the herd (or all eligible animals in a herd if less than 50 adult animals) biased to increase the probability of detecting infection, tested by ELISA, (pooled) faecal culture or (pooled) HT-J faecal PCR.

Sample test - screening of the adult herd or a large representative sample of the adult herd by an approved test (ELISA, (pooled) faecal culture or (pooled) HT-J faecal PCR).

QUESTION 9: JOHN'S DISEASE DAIRY CATTLE

JD herd status information about Dairy Assurance Score calculation is available at www.dairyaustralia.com.au/bjd

QUESTION 10 & 11: TREATMENTS & VACCINATIONS

Provide details on any cattle treatments and vaccinations within the last six (6) months.

Some manufacturers include more than one of the categories listed in the same vaccine, known as a combination vaccine. If you use a combination vaccine, each agent(s), as appropriate, should be detailed.

For vaccinations to be current, you must have followed the manufacturer's recommendation for vaccination. Typically, young animals or first time vaccinated animals need two (2) doses, followed by annual boosters. As variations to this general rule do occur (e.g. Siirum is given once only), you must use the manufacturer's recommendations.

At the date the declaration is made, the animals must be considered protected from the diseases listed.

DECLARATION

This section must only be completed by the owner or person responsible for the husbandry of the cattle in the consignment.
